

Luggage Allowance | LGW & MAN | Monarch flights
IMPORTANT BAGGAGE INFORMATION

Hold Baggage Allowance - Every passenger has a maximum of 20kg of hold/checked-in baggage this is regardless of the number of bags booked per passenger. For example, if one passenger travelling books 3 bags, the overall weight allowance for the three bags must not exceed 20kg or excess baggage fees will apply. So your boot bag can go separate to the luggage.

Hand Luggage One piece of hand baggage no bigger than the new slightly reduced size of 56 x 40 x 25cm (there'll be a size gauge at the airport to check this) and strictly no heavier than 10 kilos, plus a small duty free bag from the departure airport. (Hand luggage is weighed at the check in desk)

Skis & Snowboard Bags

IMPORTANT: You will need to book prior to your departure, as there limited places (£50 per bag return) This is subject to maximum weight of 20kgs per bag.

Liquids – A reminder

Some liquids are allowed through airport security check points. There are however, restrictions on the quantity of liquids that can be taken through:

Passengers may carry small quantities of liquids, but only within separate containers each of which with a capacity not greater than 100ml.

These containers must be brought to the airport contained in a single, transparent, re-sealable plastic bag (about the size of a small freezer bag), which itself must not exceed 1litre in capacity (approximately 20cm x 20cm). The contents of the plastic bag must fit comfortably and the bag sealed. Each passenger may carry only one such bag of liquids which must fit comfortably within their permitted hand baggage allowance.

The bag must be presented separately for examination at the airport security point.

Remember that 'Liquids' includes:

- Any containers larger than 100ml (excluding essential medicines, see section below) will NOT be allowed through the security search point.
- Most liquids of any amount may still be carried in hold baggage.
- All drinks, including water, soup, syrups
- Creams, lotions, oils, perfumes, mascara etc
- Sprays and pressurized containers including shaving foam and spray deodorants
- Pastes, including toothpastes
- Gels, including hair and shower gel
- Any other solutions and items of similar consistency
- One lighter per person may be carried through central search. Lighters form part of the allowance of liquid in the litre bag and can either be placed inside the litre bag or screened separately provided they would fit into the bag. It is very important that passengers do not place the lighter into their cabin bag after screening - it must be carried on the person for the duration of the flight. Lighters are NOT permitted in hold baggage
