PARALLEL LINES LEVEL & COURSE GUIDE

LEVEL 1 This is my first time! Never been skiing before, I'm really excited!

LEVEL 2 I have tried skiing on a dry slope or snow. I have started to turn and stop but may not always feel in control

LEVEL 5 I like skiing fairly quickly and I am happy to ski reds in good conditions. I may struggle if terrain becomes challenging

LEVEL 3 I can make controlled turns on green runs and may have skied a blue

LEVEL 4 I am skiing parallel on most blues but struggle if conditions become more difficult

LEVEL 6 I can ski reds and can get down blacks in reasonable condition. I want to improve my skills to ski steeper slopes, bumps etc

LEVEL 7 I can ski all runs in all conditions. Bumps and off piste are fun!

LEVEL 1 I'm a beginner, this is my first time on a board and I wouldn't know the difference between a highback and a toestraps! Or, I may have done a bit but I am not confident turning on both sides

LEVEL 3 I'm happy on all runs but I feel like I've hit a plateau. How can I progress?

LEVEL 2 I'm getting the hang of it, I can turn both ways on easy runs but if it gets steep or narrow I come unstuck

LEVEL 4 I can ride the whole mountain and/or I'm into freestyle. I really want to push my limits and fine tune my technique

mini green I am only young so I want to have a fun time as it's my first go!

level 1 GREEN SAFARI It's my first time, I want to learn to snowplough and make my first turns

level 3 BLUE/RED I can ski parallel on easier runs but use a snowplough when the terrain becomes more challenging

level 4 RED SAFARI I can ski reds parallel and know how to use my poles. I'm pretty quick

mini blue I have skied at least a week and have skied green runs but I want to be with children closer to my age

level 2 BLUE SAFARI I have skied at least a week. I can ski green runs in control and may have skied a blue!

level 5 ALL MOUNTAIN I have skied lots and I can ski blacks in good condition. I need to improve control of speed on steep slopes, bumps and improve my carving

level 6 MOUNTAIN EXPERT I ski fast, I can carve, ski bumps, and make short turns on steeper slopes.
